

EVALUATION OF THE PROJECT MEETING – Raducaneni, Romania – 6th – 11th April 2014

	Greece	Italy	Poland	Romania
Content of the programme	The content of the programme was excellent, we had the chance to meet students from many countries and make new friends. In addition, we had the opportunity to learn a lot about new cultures and theatre.	Good balance of different interesting activities.	Generally the whole programme was well-prepared, which made the meeting successful	the program was not too crowded. The activities were for everybody
Romanian students' presentations	We really enjoyed the presentations from Romanian students because they guided us very well to their school and their culture. The way they presented their school was very interesting, they told us about the positives and also did not tried to hide the negatives	Very good. Students presented everything in a clear interesting and understandable way.	They were nice but presented uninterestingly because they were just read from the slides	the presentation was short and had all the data needed about the Raducaneni area
Ice breaking activities	These activities were enjoyable and helped us to know better each other.	Lively and nice, giving a good opportunity of communication among all participants.	They were a good starting point and helped us get to know each other a little bit better	in these activities we had the chance to know each other. It could have been more playful
Presentations about a play 'We are citizens of...'	All the presentations were very interesting and organized very well.	Very good and also differentiated presentations, from live acting to recorded videos.	Some of them were too long. We liked especially Finnish and Bulgarian ones.	the presentations were interesting and interactive

Visit to the Catholic Church and Youth Centre	These two visits were good, but not interesting for the students. In any case we would like to declare our admiration for these people (nuns) who spend their entire lives to help other people.	Quite interesting.	It was interesting and we were surprised because we saw some Polish details: John Paul II monument, sentence in Polish	the visit was short but full of important information about the activities done in it
Painting walls together	It was an innovated idea and everyone was able to create on the "Comenius wall" everything he/she wants for the programme.	Nice idea, aimed at having a visible record of all participants' feedback.	It was great because we felt as a part of school community.	for us was nice because we have all of our partners with us when we see the wall
Cultural Evening	It was a really nice event and we are sure that everybody enjoyed it, because we tasted foods from many countries and we danced with traditional songs.	Very enjoyable, we can say "as usual" (now we are all expert!)	It was perfect despite the thing that not every country prepared a dance. It was nice of Romanians that they prepared something warm to eat	amazing, this evening brought us closer
Workshop-preparing puppets and puppet show	It was creative and also we have the chance to communicate and work together with students and teachers from all the countries.	Good idea, stimulating creativity and helping at acting even the most shy students, who could feel more self confident behind the black curtain.	Creative. We could show our artistic souls and crazy ideas. We had freedom in our interpretation and topic	it was important for the students to work together and make something with their hands.
Visit to the kindergarten and traditional Romanian lunch	The visit was an interesting experience for us and the hospitality was excellent.	Excellent idea to show how in Romania cultural and traditional teaching is important since the youngest age.	The whole thing was lovely- the amount of work put into that visit was really visible. It was fantastic that they were dressed in traditional outfits and	a part of our traditions that we shared with you

			showed us a part of Romanian culture	
Labirynth Theatre	Really amazing!! Great work and everybody enjoy it!!	The most touching experience of ever. Great organization and deep involvement of the audience. Besides, the PPT containing information about the theatrical technique, the symbolic meanings, etc represented a noticeable added value.	We were moved by the whole thing. It showed us that no matter how much money we have, the only thing which counts is our heart. The Romanians showed their strength to focus on one thing for a long time, we mean preparing, painting classrooms...	I cannot say too many words. Incredible
Trip to Iasi	Nice choice because Iasi is a very beautiful city and there were many things to do.	Good. Especially interesting the Three hierarchs Church. A pity not visiting the theatre inside.	It was nice but too much shopping and too little sightseeing	short but full of information
Trip to Lacul Rosu and Cheile Bicazului	The scenery was amazing and we liked it, but the trip was very long and exhausting.	Lovely place but too long distance, so too many hours on the coach to/from the lake.	Generally nice trip but we were travelling a lot to be there only for a short time. (14 hours which included 9 hours of travelling by bus and almost 2 hours in the restaurant)	a geography lesson in the middle of the mountains.
Leisure activities - free time with hosts	We went out all together many times and we had fun. The places where we went was a club, a park, and the school	Very good having music and dancing: all enjoyed that a lot.	It depended on a host. 3 of us almost didn't spend time with our hosts, we were spending time with all	the students had nice time together. They had parties and enjoyed each other's company

	gym for the party.		Comenius people- it was fun	
Hotel Moldova	Very good	Good comfortable accommodation. Wide choice of food for breakfast.	Decent and conveniently located. Good price	old hotel at low price and good positioning
Romanian hosts	All the hosts were willing to help us and their hospitality was excellent. They made us feel like being in our homes. Small problems solved quickly thanks to the interest of Mihaela and Coca	Very hospitable people, some could speak Italian and all of them put their guests at ease.	They were really hospitable but there was a language barrier.	-
Communication and cooperation	We were able to talk with all the students, learn about them and make many new friends. Additionally, in every problem everybody was willing to help us and explain everything	Excellent. The Romanian staff worked as a great team all the time, transmitted their enthusiasm to the others and created a warm involving atmosphere.	We had problems with communication sometimes. Generally it was ok but some of us had problems with going to the meetings where all the people were. (free time)	the cooperation was improved and we communicated better
To improve in the next project meeting	The meeting in Romania was full of theatre activities. We would like to ask the Polish partners to continue this, and remind them of the decision we took in Italy for better organization of sketches. We think that the sketches should be	Excursions should require no more than 1 and ½ hour journey to reach the planned destination.	-balance between travelling and sightseeing	nothing.

	many levels above from what we did in Italy.

Labirynth Theatre	Slightly creepy but it showed the different points of view of the human creation and the human achievements. A mix of emotions. We were transported into another world!	amazing, impressive, breathtaking,	+ an amazing and inspiring experience - we felt a bit ashamed that we did not help the Romanian hosts to prepare the theatre; it must have been a lot of work
Trip to Iasi	Fun to do and an unforgettable experience!	fun, but but it would have been nice to know something about the places beforehand	+ “The Palas” was great - not enough time to walk around - it was a pity that we could not see more of the theatre and the university
Trip to Lacul Rosu and Cheile Bicazului	Astonishing.	-too long -we should have been told more about the purpose of the trip, how to dress for the trip etc.	- the trip was far too long + the different landscapes were very interesting to see - not enough time for the lake and the reservoir -during the trip: no breaks for using a toilet
Leisure activities -free time with hosts	It was fun and interesting because we had a lot in common.	-hosts made all of us feel really welcome -students felt like they were taken good care of	+ exciting and friendly communication made it possible to meet many students

Hotel Moldova	Comfortable with a nice view.	-good location, -rooms were ok -excellent to have a free WiFi	+ adequate accommodation with friendly and helpful staff
Romanian hosts	They were a bit shy but if you get the chance to meet them, they're nice. The most hospitable people I've ever met.	-the best -really helpful and kind	+ polite and obliging hosts, students in general had good English skills
Communication and cooperation	PERFECT!	-students felt that at times there were language barriers -cooperation went very smoothly	- communication was not always easy because of lacking English skills + host families were very much willing to be helpful and supportive
To improve in the next project meeting	We can make more and more activities of our own, using imagination.	teachers: it is hard to improve anything students: need for more precise information about the upcoming activities beforehand!	Future meetings should provide each national team with more influence during the different activities. A mixture between group activities and common activities would help to improve future meetings.
